## Work Experience

---

### Camel Case Labs

Dallas , TX

#### AI Product Manager

Feb '26 - Present

- Delivered working product mockups and gathered stakeholder approval across 2 client engagements, reducing feature definition cycles by 75% (from 4 weeks to 1 week) by building functional prototypes with Claude Code instead of static wireframes
- Designed and integrated AI voice agent system that automatically converts client voice inputs into structured tickets within internal ops tool, streamlining employee task management workflows
- Built high-fidelity interactive prototypes in 2-3 days that enabled engineering to ship production features within 1 week, including Activities Board (now live) and Event Management system (in development)
- Led stakeholder feedback sessions, achieving feature approval in 2 iteration cycles by presenting functioning prototypes that surfaced edge cases and UX questions before development, reducing downstream rework

### Digital Vault Solutions LLC

Dallas, TX

#### Co-Founder & AI Product Manager

March '25 – present

- Designed and shipped full-stack mobile healthcare platform MVP in 3 months that consolidated fragmented patient workflows (lab reports, blood test tracking, AI recommendations, supplement marketplace) into a unified app for high-net-worth UAE customers, earning stakeholder approval in Dubai and advancing to active funding stage
- Led product development and go-to-market strategy for AI for Teachers, achieving 50% visitor-to-customer conversion rate and building a 90-member community through live webinar campaign and Udemy course launch
- Owned end-to-end product lifecycle for 4 SaaS products (AIGentDesk, Terminal Mastery, Menu IQ, AI for Teachers), shipping from 0 to revenue-generating in 8 months using rapid prototyping with Claude Code and Supabase

### Mind Propel

Dallas, TX

#### Automation & Marketing Lead

Aug '24 - May '25

- Built automated content pipelines for daily LinkedIn and X posting using AI generation and workflow automation tools, reducing content production time by 50% while maintaining engagement rates
- Designed and scheduled automated posting systems across multiple channels that maintained consistent brand presence with 7 posts/week while eliminating manual publishing overhead
- Produced multimedia learning materials and digital assets for online courses, improving visual consistency and learner engagement through standardized design templates

## Education

---

### University Of Texas - Arlington

Arlington, TX

#### Bachelor of Science- BS Exercise Science and Kinesiology

May '24

## Skills

---

- Product Management: Product Strategy, User Stories, Backlog Prioritization, MVP Scoping, Roadmapping, Product Lifecycle Management, Cross-Functional Collaboration
- AI & Automation: n8n, Supabase, Claude Code, Retrieval-Augmented Generation (RAG), Prompt Engineering, API Design, Workflow Automation, AI Agent Design
- UI/UX Design: User Research, User experience, Wireframing, Prototyping, Design Systems, Usability Testing, Interface Architecture, Branding Consistency
- Certifications: IBM Product Manager Professional Certificate, Google Project Management Professional Certificate
- Interests: Love to travel and explore new places, Basketball League Competitor, Outdoorsman
